created via: HPDC Online Builder

HPD UNIQUE IDENTIFIER: 1128281088

CLASSIFICATION: 12 24 13 Roller Window Shades

PRODUCT DESCRIPTION: Mermet's Vizela™ is a translucent option of solar protection for areas requiring a semi-private feel. This light filtering fabric can help modulate light and privacy as needed. Vizela is offered in a less than 1% openness with more than 99% UV blockage and 100% glow to preserve privacy while also contributing natural daylight. Vizela is available in 5 colors and comes in a 94.5" width. Product specs: composition 100% woven fiberglass/EVA coating; PVC-free and Halogen-free. The fabric meets fire classifications NFPA 701-99 TM#1, California U.S. Title 19. Vizela is also RoHS compliant.

Section 1: Summary

Basic Method / Product Threshold

CONTENT INVENTORY

Inventory Reporting Format C Nested Materials Method Basic Method

Threshold Disclosed Per Material

Product

Threshold Level

C 1,000 ppm C Per GHS SDS Other

Residuals/Impurities Evaluation Completed

C Partially Completed Not Completed

Explanation(s) provided:

Yes O No

For all contents above the threshold, the manufacturer has:

Characterized ⊙ Yes ○ No

Provided weight and role.

Screened Yes ○ No

Provided screening results using HPDC-approved methods

Identified

Yes No

Provided name and CAS RN or other identifier.

CONTENT IN DESCENDING ORDER OF QUANTITY

Summary of product contents and results from screening individual chemical substances against HPD Priority Hazard Lists and the GreenScreen for Safer Chemicals®. The HPD does not assess whether using or handling this product will expose individuals to its chemical substances or any health risk. Refer to Section 2 for further details.

PRODUCT | MATERIAL OR SUBSTANCE | RESIDUAL OR IMPURITY **GREENSCREEN SCORE | HAZARD TYPE**

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- Basic Inventory method with Product-level threshold.
- Nested Material Inventory method with Product-level threshold
- · Nested Material Inventory method with individual Material-level thresholds

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.3, available on the HPDC website at: www.hpd-collaborative.org/hpd-2-3-standard

VIZELATM

PRODUCT THRESHOLD: 100 ppm

RESIDUALS AND IMPURITIES EVALUATION COMPLETED: No

RESIDUALS AND IMPURITIES NOTES: No evidence of residuals and impurities was identified by any supplier or found in the manufacturing process. Therefore residuals and impurities were not considered.

OTHER PRODUCT NOTES: No alternate supplier or materials are applicable for this product.

Section 4: Accessories

This section lists related products or materials that the manufacturer requires or recommends for installation (such as adhesives or fasteners), maintenance, cleaning, or operations. For information relating to the contents of these related products, refer to their applicable Health Product Declarations, if available.

No accessories are required for this product.

Section 5: General Notes

Health hazards and screenings completed by the HPDC Online Builder tool.

MANUFACTURER INFORMATION

MANUFACTURER: Mermet Corporation

ADDRESS: 5970 N Main Street Cowpens, South Carolina 29330

COUNTRY: United States

WEBSITE: www.MermetUSA.com **CONTACT NAME: Nathan Wintermute**

TITLE: Product Manager PHONE: 8644635439

EMAIL: nathan.wintermute@MermetUSA.com

The listed contact is responsible for the validity of this HPD and attests that it is accurate and complete to the best of his or her knowledge.

Applicable facilities Manufacturing sites to which testing applies

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard v2.1 is not:

- a method for the assessment of exposure or risk associated with product handling or use,
- a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.

Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.

The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.

The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this
