Re: Mermet Fabric Printing Compatibility

To Whom it May Concern,

We are pleased to confirm that the following Mermet USA fabrics have been tested for use with both Latex and UV ink applications, and we can confirm they are suitable:

- E Screen™
- Sparta Twilight™

The ColorBase Expert Center successfully profiled these fabrics on the FUJIFILM Acuity Ultra R1 printer, and certified them for HP Latex Inks on the HP Latex 3000 Series, demonstrating performance and compatibility.

If you have any further questions or require additional technical details, please do not hesitate to reach out to us directly.

Regards,

Nathan Wintermute

August 19, 2024 - 54228

This substrate is hereby certified for HP Latex Printing Technologies

Color Concepts Netherlands

This substrate is certified for the following HP Latex Printers

Latex 3000-series

For more information, please refer to the HP media Solutions Locator <http://hp.com/go/mediasolutionslocator>

This substrate has been evaluated under the standard comprehensive testing procedure, in conjunction with HP Latex substrate certification criteria.

Please note: By certifying your product this means you support it's use on HP Latex equipment and its uses, and that you will perform any due diligence necessary should complaints arise. Further, by receiving approval, you agree that if there are any manufacturing or product changes that may impact substrate performance you will have the product re-tested/re-certified, to eliminate the risk of issues in the field as a result.
